PEMBROKE, N. H., January, 1915.

## REPORT OF WATER COMMISSIONERS.

---

We herewith present our second annual report.

In accordance with the provisions of our charter, a meeting of the board of water commissioners was called after the last annual town meeting. At this meeting the board organized with Rufus B. Robinson, chairman, and Fred W. Saltmarsh, secretary, the office of treasurer being abolished as all the funds have to pass through the town treasury.

By a decree of the superior court rendered June 29, 1914, the town of Pembroke, for a consideration of \$73,775.51, came into possession of the property, rights and franchises of the Suncook Water Works Company.

The next work of importance was to appoint a superintendent and Gedeon Petit, being the choice of all the members of the board and also of the selectmen, was appointed to that position.

After acquiring the property of the Suncook Water Works Company the commission next gave serious consideration to the bids which had previously been received from various pipe manufacturers to furnish pipe for the new system. The board also turned their attention to the bids of several construction companies to do the construction work. After much inquiry and due deliberation, the contract to furnish the water pipe was awarded to the Michigan Pipe Company of Bay City, Mich., and to the firm of A. Wycoff & Sons Company of Elmira, N. Y. The contracts were signed August 13, 1914, and the following guaranty was incorporated in them; that they and their successors agree with the town of Pembroke to furnish and replace pipe of the same standard quality in the pipe line free of charge during a period of twenty-five years from date hereof, which fails from corrosion or rust of the bands thereon, or from any cause traceable to

defective material or workmanship or weakness in pipe to stand the static pressure for which it was furnished.

On the construction work, six firms submitted bids to the board and in the aggregate some of them were about the same while they differed as much as 300 per cent. on some of the items. This made it quite difficult for the commissioners to make a choice, but with the advice of the engineer the contract was awarded to Ablett & Bowes of Cohoes, N. Y., on August 20, 1914.

The contract price of the work itemized is as follows:

For trenching, laying, and backfilling, 14-inch pipe, \$0.35 per L feet.

For trenching, laying, and backfilling, 12-inch pipe, \$0.24 per L feet.

For trenching, laying, and backfilling, 8-inch pipe, \$0.20 per L feet.

For trenching, laying, and backfilling, 6-inch pipe, \$0.20 per L feet.

For trenching, laying, and backfilling, 16-inch pipe, \$2.50 per L feet or actual cost plus 15 per cent.

For laying 12-inch cast iron pipe across river, \$1.50 per L. foot.

For constructing gate house and intake at Pleasant Pond, the sum of \$500.00.

For rock excavation, the sum of \$4.00 per cubic yard.

For setting gates, hydrants, and valves, \$2.00 each.

Owing to the lateness of the season when the work was commenced it seemed impossible to complete the whole undertaking in one year, so the operations were confined to the upper end of the system. At the present time 4,750 feet, or all of the 16-inch pipe has been laid and about 6,000 feet of the 14-inch and 4,750 feet of the 12-inch at Short Falls. The gatehouse and intake are all complete with the exception of a few days' work which cannot be done until warm weather.

Work will be resumed in April or May and a larger force

of men will be called on with the intention of completing the entire work as early in the season as possible.

RUFUS B. ROBINSON,  
FRED W. SALTMARSH,  
FRED M. PETTENGILL,  
GEDEON PEHT,  
GEORGE E. GORDON,

*Water Commissioners.*

## PEMBROKE WATER WORKS—SELECT- MEN'S REPORT.

### RECEIPTS.

By amount received from George A. Fernald & Co., first issue of 100 bonds and interest,	\$102,971.11
By amount received from Edwin L. Child for bonds and interest,	8,556.67
By amount received from Stephen E. Bates, for bond and interest,	1,010.00
By amount received from Charles F. Bates for bonds and interest,	4,051.11
By amount received from Stephen A. Bates for bond and interest,	1,034.34
By amount received from Edwin L. Child for bonds and interest,	3,050.00
By amount received from Fred. W. Saltmarsh, collector Pembroke Water Works, for rentals,	5,040.85
 Total receipts,	 \$126,553.97

### PAYMENTS.

1914.

April 4. Dudley and Sawyer, services as engineer,	\$663.59
Fred W. Morse, auto service to Pleasant Pond,	7.00
Union Leader Publishing Co., proposal for bids,	9.00
Bert F. Harris, 13½ days of labor,	24.75
H. K. Rogers, auto service to Pleasant Pond,	12.00
Hillman garage, auto services to reservoir and Pleasant Pond,	11.50
Walter S. Cass, supplies, 2 axes,	2.00

May	8.	Alexis Chapdelaine, use of one horse, 9½ days,	\$11.88
		Joseph Wilkins, photograph of reser- voir,	22.00
		George A. Fernald, to engraving and printing, legal advice, drawing up bonds, and all other services in con- nection with the issue of \$100,000 town of Pembroke water bonds,	413.00
June	20.	Charles H. Manning, services as con- sulting engineer, preparing estimates, traveling expenses and typing,	151.40
		Charles N. Taylor, personal services and expenses,,	279.95
		Dudley and Sawyer, services as engi- neer,	145.20

## REPORT OF SCHOOL BOARD.

---

Since last report another change has taken place in the supervisory district, Epsom withdrawing, and the town of Merrimack taking its place. So our supervisory district is now composed of Pembroke, Allentown and Merrimack. These frequent changes are injurious, but unavoidable under the present law. Supervision should be made compulsory and the districts reasonably permanent.

The superintendent's report sets out fully the condition and needs of the school. Conditions have been, we believe, generally satisfactory.

Such repairs on schoolhouses as were deemed necessary have been made during the past year. No extensive repairs will be required for the coming year.

It has been necessary, owing to the increased price of board demanded, to make a small increase in the pay of some of the teachers. And it is because of such conditions that the item of teachers' salaries for the ensuing year is estimated larger than last year.

The board estimates the amount of money needed for the ensuing year as follows:

Interest on bonds,	\$332.50
Pembroke Academy, tuition,	1,500.00
Teachers' salaries,	4,000.00
Text-books and supplies,	450.00
Repairs,	400.00
Fuel,	400.00
Janitors,	350.00
Conveying pupils,	400.00
Superintendent's salary,	653.34
Salaries of district officers,	216.00
Water supply,	53.00

To pay bond,	\$1,000.00
Cleaning schoolhouses,	52.00
Taking school census,	21.00
Miscellaneous bills,	100.00
	<hr/>
	\$9,927.84

The receipts of money for the ensuing year by the district, exclusive of the money raised at school meeting, are estimated as follows:

Balance in the treasury,	\$676.40
Amount of school money required by law,	3,712.50
Literary fund,	223.74
Allowance from state for average attendance and approved teachers,	1,058.75
One-half superintendent's salary,	326.67
Dog money,	160.00
Tuition,	100.00
	<hr/>
	\$6,258.06

## REPORT OF TREASURER.

---

Amount rec'd from March 25, 1914, to February 22, 1915,	\$10,401.96
Paid from Order No. 1 to Order No. 73,	9,725.56
	<hr/>
Balance on hand,	\$676.40

Respectfully submitted,

FLORENCE WALKER BATCHELDER,  
*Treasurer.*

I hereby certify that I have examined the foregoing account of the treasurer, Florence W. Batchelder, and find the same correctly cast and properly vouched and a cash balance in her hands of six hundred and seventy-six and 40/100 dollars (\$676.40).

WILLIAM N. JOHNSTON,  
*Auditor.*

PEMBROKE, N. H., February 22, 1915.

## REPORT OF THE SUPERINTENDENT.

---

### *To the School Board and Citizens of Pembroke:*

I have the honor of submitting to you my second report of your schools.

The state legislature now in session at Concord has under consideration an act defining the specific duties of school boards and superintendents. This fact precludes any discussion of these specific duties and powers.

### *The Superintendent's Aid to Teachers:*

Dr. Emerson E. White has clearly stated the superintendent's most helpful aid to teachers: "The most helpful supervision does not dictate or prescribe details; but it asks for results and then so instructs, inspires and guides teachers, that they freely put their best thought and effort into whatever they do. This means professional progress, growth in skill, and increasing success."

### *The Teacher the Essential Factor.*

The essential factor in the school work is the teacher, whose duty naturally falls under three heads—organization, discipline and instruction. It is obviously the duty of the teacher to see that the premises, buildings and school furniture are kept clean, the school rooms properly warmed and ventilated; to classify the scholars; to draw up a daily time table giving the time and length of each recitation; a definite study program as well as a definite recitation program, that each pupil may know exactly what he should be doing "now," and that the teacher should know what each pupil is doing "now"; to promptly open and close school; to require quiet deportment of the scholars in the building and on the recrea-

tion grounds; to train the pupil to a prudent use of supplies and to strictly make out the school register as required by law. (Less than five per cent. of the registers given to me this year were completely and accurately kept.)

The discipline of a school should be mild but firm. The teacher who would inculcate habits of punctuality, orderliness and courtesy, must himself practice these virtues.

### *Parents' Duties.*

Parents should visit the school which their children attend. Without this they can have no accurate idea of the affairs in the school room. By visiting the school they can see the standing of their children and will become more interested in the work of the school. This display of interest on the part of the parents will quicken the pupils to diligence and the teacher to a greater activity.

### *Report Cards.*

The attention of parents is particularly called to the report cards brought home by the children. These cards give the pupils standing in his studies, also his deportment and instances of tardiness and half-day's absence during the preceding period and are the school's means of keeping the parents informed of what the children are doing.

I would urge parents to examine carefully each item and to investigate immediately any unsatisfactory report by consulting the teacher.

An intelligent co-operation of home and school is earnestly desired.

The third element, instruction, is the aim and end of good organization and discipline.

The great aim in school, as in after-school life, is getting the work done, human adjustment accomplishing the task.

Every teacher owes it as a duty to his pupils to be a student of the best works on methods of instruction and school management; a reader of the best school journals; an attendant at the teachers' convention, both state and county. If

the teacher would secure the greatest returns for his labors he must show that he is interested in the subject taught for the pupil's welfare and progress, and work patiently, consistently, persistently and sympathetically with him.

*Truancy and Irregular Attendance.*

Truancy and irregular attendance, tardiness and dismissals, are the great school evils. Truancy of the pupil tends to crime in later life. Parents, teachers and school officers should conscientiously guard against these habits.

I desire to call your attention to the urgent need of a beautiful schoolhouse; of a curriculum enriched by the introduction of manual training, domestic science, elementary agriculture, music and drawing; of making each schoolhouse a social center.

In general I have found the teachers willing workers and the pupils making a commendable degree of progress.

In conclusion I wish to express my appreciation to the citizens, school board, teachers and pupils for their cordial support.

Respectfully submitted,

HENRY S. ROBERTS,  
*Superintendent.*
